Achievement in the last six months

Health achievement

- 9 HC staff supported to ANC/PNC and C-IMC refresher course
- 29 VHSGs trained on ANC/PNC and C-IMC
- *495 community people received and participated in health training on how to have good health, prevent disease, good nutrition and caring for their children.*

Nutrition Achievement

- 9 HC staff supported to BFCI refresher course
- 29 VHSGs trained on BFCI and nutritious porridge making
- *220 community people received and participated in good nutrition and caring for their children.*
- 307 children under 5 years old joined in growth monitoring

WASH Achievement:

- 👥 176 (24 women) formed WASH member from CCWC, Village leader (VL), VHSGs, youth and church leaders *and 46 people got trained on water, sanitation and hygiene (WASH) essential needs*
- 👥 1421 people throughout village cleaning, awareness and training.
- 👥 Supported **292** water tanks to poor 1 & 2 households for water storage facilities and created taps for hand washing facilities
- 👥 12 set of hygiene kits provided to 12 model HH
- 👥 217 households created owned tippy taps for hand washing

WASH Achievement:

- 114 villages were selected to implement the CLTS approach.
- 217 (195 women) were capacity building on hygiene promotion, hand washing and environmental cleaning.
- 12,298 benefits from hygiene promotion, and safe drinking water.
- Supported 38 community members to lead sanitation and hygiene reflection meetings and updated the communities'-built latrines and planning

WASH IN SCHOOL

- ❁ Trained 57 school directors and teachers on Minimum Requirement guidelines on WASH In School (3 stars approach)
- ❁ 8 primary school latrines renovation and group hand washing installations, benefiting 1,128 (528 girls) school children.
- ❁ 2 New inclusive latrine construction in schools
- ❁ Worked with the school director and SBMC to promote basic hygiene awareness raising, body hygiene and MHM to 778 (240 girls) students.
- ❁ Supported 149 segregated trash bins in 86 primary schools and 45 community pre-schools.

Lesson Learn

- Adapt and align with government strategy.
- Well cooperative with local authority, government partners.
- Community wiliness to participate and learning from program.
- Well cooperative with local NGOs, INGOs and UN agencies.

Challenges

- Community people migrants crossing the border to Thailand for jobs and seasonal migration so unexpected participants lower the plans.
- Limited WASH infrastructure and leadership in community and School Leadership

THANK YOU !
